

sysmosoft

Release Real BYOD in a safe and compliant manner.

SENSE Workspace is a simple, efficient and yet highly secured Swiss mobile solution designed for company wishing to securely mobilize their internal or external workforce.

Sensitive data is accessed through a secured workspace, which uses **unique independent security** mechanisms fully controlled by the company. As a result, company assets are protected anytime, whatever the configuration or ownership of the device. Users keep their habits, apps and privacy **without suffering from painful device restrictions**.

Key Benefits

- ✓ **REAL BYOD**
Deliver secure mobile productivity with full respect to user privacy and device freedom
- ✓ **SEAMLESS INTEGRATION**
Out-of-the-box integration with company infrastructure and systems
- ✓ **SIMPLE MANAGEMENT**
Focus on managing corporate workspace without worrying about device configuration
- ✓ **EMM COMPATIBILITY**
Deploy SENSE Workspace on top of any EMM or as standalone solution
- ✓ **DEDICATED PROTECTION**
Protect sensitive assets end-to-end with dedicated banking grade security layer
- ✓ **EXTENDED ENTERPRISE**
Extend usage of SENSE workspace to deliver mobile access to external workforce
